

## Chile's Comfrut secures \$13m loan

Publicado Friday, October 15th 2021

Chilean fruit producer and exporter Comfrut has secured a \$13.3 million loan from Banco Consorcio.

The financing will be used to acquire a new plant for the production and processing of frozen fruit located in the Chilean city of Curicó, and is guaranteed with a set of assets.

Comfrut produces a wide range of fruits, such as blueberries, blackberries, raspberries, strawberries, cherries, peaches, grapes and apples, with the US and Canada its largest export markets.

Chilean law firm Larrain y Asociados advised Banco Consorcio on the structuring, negotiation, documentation and closing of the financing.
